TITLE: Method of Operation of a Printing Unit and Printing Unit for Offset Machine

THE ASSISTANT COMMISSIONER FOR PATENTS
Washington, D.C. 20231

MARKED VERSION OF CLAIM 11

11. A method of operating a printing unit in an offset machine, having an inking unit and a dampening unit, comprising the steps of:
- providing a doctor blade chamber device;
 - disengaging [an] the inking unit from contact with a cylinder, while the dampening unit remains engaged with the cylinder, when the doctor blade chamber device of the printing unit is applying lacquer; and
 - engaging the inking unit to be in contact with the cylinder when the doctor blade chamber device of the printing unit is applying water.
